Application/Control Number: 10/501,500

species V is illustrated in figures 8A, 8B.

Art Unit: 3723

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

species I is illustrated in figures 1, 2A, 2B, 3A, 3B, 5A, 5C;

species II is illustrated in figures 4, 5B;

species III is illustrated in figures 6, 9;

species IV is illustrated in figure 7; and

The species are independent or distinct because species I illustrated in figures 1, 2A, 2B, 3A, 3B, 5A, 5C, is a wrench with a colored insert; species II illustrated in figures 4, 5B, is colored band; species III illustrated in figures 6,9 is a colored coded tool holder and organizer; species IV illustrated in figure 7, is colored coded crescent wrench; and species V, illustrated in figures 8A, 8B is a colored coded bolt.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 27, 32, 35, 39, 41 does not appear to generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an

Application/Control Number: 10/501,500

Art Unit: 3723

allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

A telephone call was made to Attorney Patrick P. Pacella on 12/12/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Ojini whose telephone number is 571 272 4492. The examiner can normally be reached on 7 to 4 Tuesday-Friday with every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 571 272 4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
